MLK, Parks, and Malcolm don't have any thing on RoseyBy Panini McUpperdeckRosey Grier is a true pioneer in the world of needlepoint. During a turbulent time in our country's history, he looked at a usually female taken up hobby dead in the eye and said, "Why not me?" Blue-haired old ladies laughed at him. His football peers called him "fruity" and commented on his "swishy hips" behind his back, but Mr. Grier took it all in stride. He never let the world dictate to him on what he could do on and off the field. An American bad ass through and through showed why it is manly to pick up a needle and create something beautiful with it instead of simply shoving right in the eye of some jive talking idiot. We salute you, Mr. Grier, for making the USA a better place for everybody. Good bless and carry on!

Detailed how-to book on the craft of needlepoint by the famed 1970s football player Rosey Grier, aimed at the men in the audience. Includes many photos, step-by-step instructions, and sample patterns for the crafty man.
