It's beautiful, has lots of space, some structure but not too much (ie: paste a class photo here, or I am ___ inches and ___ years old for preschool, but not 10 lines to complete.) There are 4 pages for each grade through 8th, and then 2 for each grade of high school, with pockets in every one big enough to hold 8.5x11 papers. Best of all, it was about HALF THE PRICE OF THE SAME EXACT PRODUCT listed on under a different heading. Weird? But great for me!4 of 4 people found the following review helpful. Much nicer than expected!By Brooke M HansenThis memory book is very nice and extremely thick. It is spiral bound, and the covers are strong. Every page is a pocket, which makes storing more than one or two pieces of artwork much easier. There are several pages for each grade until high school. The pictures in the book are girly but not over the top. It is large enough to fit a normal piece of paper into the folder without folding which was a big part of why I chose this one. I also like that it has pages for preschool, which is

fun to keep artwork from that age. Overall, for the price, I was extremely impressed with this book, it will definitely make it through our daughters school years and keep everything organized! 4 of 4 people found the following review helpful. Exactly what I was looking for! By W. Broome Love this book!! It's 12x12, like a scrapbook. It's spiral bound so the thickness can't be adjusted. I'm guessing it will be bursting at the seams by the time my kids graduate. lol! The pages inside are not square, but are bigger than a standard 8X11.5 sheet of paper. Every page is a pocket! The only gripe I have... and it's nit picky... is that not all of the grades start on the left page, so sometimes you'll have the last page of one grade next to the first page of the next grade. Also... some of subtitles will be covered up when you put the picture on top, like "Here's me on my first day of preschool". Nothing to take the rating down, but thought I'd mention it. LOVE this book!
