From Brand: Memory Makers : Scrapbook Pages Starring Your Baby (Memory Makers) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Scrapbook Pages Starring Your Baby (Memory Makers):

0 of 0 people found the following review helpful. YOUR BABY IS THE STAR! By Love To Read Tee This is a great book. I love the unique layouts in this book, like the way she uses sonogram pictures, the pictures of when you're pregnant showing your stomach, pics of fixing up the baby room. I especially like the way she shows how to scrap paperwork for the baby, like the birth certificate, growth chart, christening or blessing, baptism papers, paperwork from the doctors, and more. This book also shows how to scrap memorabilia by actually putting it on the pages, they even show how to put outfits on the pages. Great chapters like A Star is Born, Supporting Cast. There are great ideas all throughout the book, but what I like the most is that your baby pictures are always the main focal point. There are some fresh ideas for embellishments that you make yourself, that I've never seen in any other books, but they never

overpower the pictures. Now if you're looking for a lot of computer scrapbooking, this is not the book for you. Also, if you want a lot of real fancy things on the page, like interactive embellishments this is not your book. The pictures of the babies are so cute, they should be the main thing to focus on. They should be the star on the page. 1 of 1 people found the following review helpful. It's full of inspiration

If you are like me, you look at these layouts to get ideas, but never EXACTLY duplicate what I'm shown. This book is jam-packed with good ideas that are practical and tasteful. Nothing too wild, nothing too expensive or too difficult to reproduce with the supplies most scrapbookers already have or can find at an ordinary craft store. I highly recommend it for someone who wants to start a baby-oriented album. 0 of 0 people found the following review helpful. Scrapbook
By Dina
This book was wonderful! I borrowed it from a friend, and was impressed with the amazing assortment of wonderful ideas. It made me motivated and excited to start my own scrapbook. I had to return the book, unhappily of course. :(But then decided I needed to purchase my own book. It had so many beautiful examples and was a constant reference for me. It sparked a lot of creativity in me, and I give it full credit, for helping me design a beautiful scrapbook for my daughter's first year. I would recommend this book to anyone starting a scrapbook for their baby. It will be the only one you need, for inspiring gorgeous ideas!

Your baby exhibits Star Quality in every gurgle, every coo, every gummy smile and every toddle. Loving parents understand the importance of capturing those special firsts - and all those baby steps that follow, in photos that beg to be preserved in a very special baby scrapbook. Inside *Scrapbook Pages Starring Your Baby*, you'll find more than 250 terrific scrapbook page ideas that can be easily recreated to showcase your little one's award-winning moments.
