With the hormones and worries and rush that come with expecting a baby, being creative has been the last thing on my mind even though I have tasked myself with creating scrapbook page after scrapbook page to commemorate every little milestone in pregnancy. The last thing I wanted was to half-arse a scrapbook that my family, friends, and firstborn will see for years to come. Enter "Scrapbooking for Baby" by Better Homes and Gardens. There are hundreds of projects,

including some for baby decor (which I didn't use but who knows? I may in the future). The page layouts are so cute and SIMPLE - perfect for the woman who is having a hard time just sitting in a chair comfortably, much less drawing from the creativity wishing well. There are tons of big, colorful pictures and tips and tricks. I've found myself ignoring most of the writing and just copying the cute layouts for quick, but adorable and memorable pages that my family - and my son - can enjoy for years to come. 0 of 0 people found the following review helpful. Great for a beginning scrap booker with a first grandchild. By Buffalo lady I am just a beginning scrapbooker but wanted to start because we just were gifted with our first grandchild. The book is very useful for beginners. I wouldn't have had a clue otherwise. I like it! 0 of 0 people found the following review helpful. I like it!!
