Lynette Kent : Scrapbooking with Photoshop?Elements: The Creative Cropping Cookbook before purchasing it in order to gage whether or not it would be worth my time, and all praised Scrapbooking with Photoshop?Elements: The Creative Cropping Cookbook:

0 of 0 people found the following review helpful. Don't bother....By Barbara SanteeVery outdated. Published in 2005 - technology has come so far since published. Great for beginners to computers but if you have any knowledge waste of money. Glad it was only a couple of dollars.7 of 7 people found the following review helpful. Informative and easy-to-use software guide for scrapbookersBy GoNoniMs. Kent's clever approach with your computer is full of "recipes" for easy techniques to make you scrapbook look great. She even includes "recipe cards" at the back of the book so you can cook up a project quickly and with no problems. She shows how to make professional looking pages with Photoshop Elements which is really easy to use. This book is loaded with so many great ideas. It is is must-have for

scrapbookers! 0 of 0 people found the following review helpful. Awesome book for ideas, guidance, and instruction. By HosWell written and laid out in a methodical order. Instructions are clear and understandable, and the supporting pictures are well done. Having this book in my library will enhance my scrapbooking experience.

Today's advancements in digital technology are transforming the traditional art of scrapbooking. With a computer, digital camera, scanner, ink-jet printer, and Photoshop Elements Adobe's popular digital imaging software for home users--you have all the ingredients you need to create a truly astounding and unforgettable scrapbook.
