Memory Makers Books : Scrapbooking Your Adult Years: 185 Outstanding Ideas for Pages about Grown-Ups (Memory Makers) before purchasing it in order to gage whether or not it would be worth my time, and all praised Scrapbooking Your Adult Years: 185 Outstanding Ideas for Pages about Grown-Ups (Memory Makers):

24 of 24 people found the following review helpful. Excellent scrapbook inspiration for adults By Amy Henley I have been doing crafts for over two years, but have never done any scrapbooking except to put photos in albums with littel or no embellishment. As I don't have any kids, I thought SCRAPBOOKING YOUR ADULT YEARS would be a good place to start. I was not disappointed. SCRAPBOOKING YOUR ADULT YEARS contains chapters on all the major categories in adult life. Besides having general tips for "time-efficient scrapbooking," SCRAPBOOKING YOUR ADULT YEARS has the following chapters: This Is Me, Love Stories, Family Matters, You've Gotta Have

Friends, Just for Fun, and More Than a Job. Although Family Matter does have layouts that include children in the photos, it is for the purpose of the scrapbooker looking back at their own childhood. There are a variety of layouts using a wide range of paper and embellishments suitable for pages featuring both men and women. I enjoyed the book so much I have sticky notes on practically every page marking the ones that inspired me! I have since checked out from the library another of the author's books that is also excellent called SCRAPBOOK PAGE DESIGN. It has the most information I've found on general design tips with also detailed descriptions of examples. I would suggest both these books to anyone interested in scrapbooking. 1 of 1 people found the following review helpful. Comes up short. By bookaholic After several years of obsessive scrapbooking, I am always on the lookout for fresh ideas for layouts. I had hoped this book, with the adult emphasis, would be that. Sadly, no. Blocky layouts were the norm. On the plus side, there are lots of ideas for themes of pages, and ways of presenting those 'grown-up' memories that were welcome.

With this one of a kind and much needed guide, scrapbookers will find the inspiration they need to capture the milestones of their adult years in scrapbook form. The book provides: Dozens of diverse ideas for preserving photos and memorabilia of friendships, romance, career promotions, recreation, military service and more Creative sidebars featuring page ideas, journaling tips and additional idea inspirations With examples that are both classy and classic, this book provides adult scrapbookers with the instruction they need to create lasting keepsakes of their favourite grown-up memories.

About the Author Memory Makers Books encourage crafters to create outstanding scrapbook pages for every occasion and life stage. Memory Makers titles offer the highest level of instruction and inspiration for scrapbookers.
