About the Author Leaving my Legacy and Heritage through Scrapbooking has been my passion for over thirteen years and I have seen the industry just explode with a multitude of products. The one thing that has always been a must on my pages is a title that almost explains the page layout. My favorite kinds of titles are the ones that are a 'play-on-words' which gives them a playful impact. Coming up with little sayings, one liners, expressions, etc. for my titles are like the cherry on a sundae to me. I used to write down sayings and such for titles on scraps of paper and collect them for my upcoming layouts which would inevitably get lost. My first few searches for any books of titles was slim and frustrating for me. I did find a few, but I wanted more so with my family and friends encouragement, I decided to write my own book and in May 2005 Totally Toppers Titles was born. That book includes quotes, poems, prayers and more and is terrific. Being that I love collecting titles my own personal book was getting crammed full of additions, as I had added thousands of titles since the book was released. I wanted to share this collection of over 22,000 titles so I decided to write another book of just titles...Scrapper's Soup of Titles Toppers. This book is the largest resource of Titles Toppers with more than 22,000 in over 400 categories to choose from. Cross-referencing and ideas are incorporated wherever possible providing you with an optimal array of options. You will never be at a loss for a title with this book in your hands, as there are 22,000 of them. You may even find yourself creating layouts based on a great title you read, giving you a memory you may not have experienced had you not read this book. I hope you enjoy using this encyclopedia of titles as much as I do in helping your pages to tell their story in a great title. Have a Scrappin' 4 Memories Day Cheryl Bradbury
