Edyta Sitar : Scrappy Firework Quilts - A Blast of Strips, Scraps Triangles before purchasing it in order to gauge whether or not it would be worth my time, and all praised Scrappy Firework Quilts - A Blast of Strips, Scraps Triangles:

They are so very pleasing to the eye! I have this book on my coffee table where I can pick it up and view it as often as I please, and...in preparation for my next quilt! I just can't decide which one to go with...but I think it will be the Egg Cartoon Quilt, as I am partial to "checkerboards!" I plan to use a dark grey or black as the color really pops in this quilt! My other favorite, because it doesn't look too challenging, is the Cobblestones Quilt. I recommend it to all Quilt lovers! 2 of 2 people found the following review helpful. Almost 5 stars By C. Perry I would give this book five stars because I love Edyta and her beautiful color choices. However, I

have been trying to piece the eight pointed star scrappy diamonds and I cannot get the seams to match up, and the diamonds keep coming out backwards. I'm not sure what I'm doing wrong, but I feel like the instructions for the scrappy eight pointed stars are not clear enough. There needs to be more directions here to lead to better results the first time. I am an intermediate quilter. 1 of 1 people found the following review helpful. I Love This Book! By Carol C. I am building my collection of quilting books and must say that I have not purchased a book yet where I have loved every one of the quilts and projects in the entire book. This book by Edyta Sitar is the exception. I love every one of the quilts in this book and have added each one to my "quilts to make" bucket list! I love the pattern mix of piecing and applique in the quilts. I've never been a big fan of batiks but the use of batiks in Edyta's book inspires me to use some! The full color section illustrating the techniques used in making these quilts is very clear and guides you through step by step. I have already seen some techniques that were new to me and that I am anxious to try. I was very happy to have purchased this book and would happily have given it 10 stars!
