Vernon Brown : Scroll Saw by Land, Sea Air: 46 Ready-to-Cut Patterns for Trains, Ships, Planes and Cars before purchasing it in order to gauge whether or not it would be worth my time, and all praised Scroll Saw by Land, Sea Air: 46 Ready-to-Cut Patterns for Trains, Ships, Planes and Cars:

2 of 2 people found the following review helpful. Shoddy patterns
By peter
Looked forward to this book, but what a disappointment. The scrollsaw workmanship is so shoddy!! All the lines have a wavy look to them and the design does not show the true picture. Take the locomotive, it's wheels do not have spokes, just random cutouts, the rest as well. Everything seems to just be out of proportion!! Do not recommend this book at all!!

By William D Whitaker
This book has plenty of patterns to keep a scroll saw busy for a while. The patterns are ready copy without needing to resize unless you want a very large pattern. For example,

the cars are about 4x9". One of the trains is twice that size. The patterns are not too difficult for anyone with basic scroll saw skills.

Get on the road to a great scroll sawing experience. Includes 46 ready-to-cut patterns, basic cutting and stringing instructions and instructions for altering patterns to include photographs.

From the Back CoverTake Off On A Scrolling Adventure! Inside you'll find 46 scroll saw patterns guaranteed to get you "on the road" to an enjoyable scroll saw experience. *Travel the rails with patterns for old-fashioned locomotives and modern engines - like the William Mason and the American Locomotive Company's 1959 Diesel Locomotive. *Fly above the clouds with patterns of bi-wing planes, fighter jets and today's Concorde. *Sail the high seas with patterns of majestic sailing ships and comfortable sailboats - like the Santa Catarina and the Flicka. *Take a Sunday drive with patterns for antique and classic cars - like the 1915 Ford Model T and the 1932 Alpha Romeo. Whether you prefer fast or slow, grounded or airborne, the wide variety of patterns for helicopters, planes, ships, trains and cars presented here is sure to please. Includes 46 ready-to-cut patterns and covers basic cutting and stringing instructions. Also includes instructions on altering patterns to include photographs.About the AuthorVernon Brown has been an avid woodworker since his younger days. In 1994, he bought a scroll saw-a purchase that, in his words, "changed his life." The next year, he published the original version of "Scroll Saw by Land, Sea Air" and started a new pattern catalog. The Wooden Teddy Bear Collection. Vernon enjoys creating new patterns of intarsia, fretwork, shelves, and clocks, to name a few. All of his pattern can be found in the Wooden Teddy Bear's catalog, which currently contains well over 500 patterns, blades, and other accessories for scrollers. To request a copy of the Wooden Teddy Bear catalog, call (888) 762-9149 or e-mail woodentedybear@pobox.com. Vernon also maintains a website at www.woodentedybear.com.
