By Mary Colin Santos I've become a beach glass lover over the past several years, and when I saw this calendar I ordered it for myself. I am impressed with the large size and heavy, slick paper, and the photos are bright and colorful. Would definitely recommend it for any sea glass lover! 0 of 0 people found the following review helpful. great calendar - beautiful pictures By queenbee I ordered one as a gift one for myself. The gift recipient really likes it, as do I. The photography is great the paper is very good quality, not like some other calendars I have seen. I'm looking forward to enjoying 12 months worth of beach glass pictures. 0 of 0 people found the following review helpful. Beautiful photos of sea glass By Seawalker As a collector of sea glass, I was happy to be able to buy this calendar. The images are bright and beautiful, showing a variety of different pieces/collections of sea glass. It looks great hanging on the wall! Wonderful gift for a beachcomber.

Grace your wall with visions of sea glass and pottery shards that have washed up on the shore. These beach finds have often traveled long and far to be flung at the feet of collectors and artists, many of whom produce stunning creations with them. Inspired by our books *A Passion for Sea Glass* and *Sea Glass Chronicles* this calendar features beautiful

photography as well as tips and secrets for finding sea glass.
