**Pip Lincolne : Sew La Tea Do: 25 Favourite Things to Sew** before purchasing it in order to gage whether or not it would be worth my time, and all praised Sew La Tea Do: 25 Favourite Things to Sew:

3 of 3 people found the following review helpful. Good Book But Not For MeBy R. MooreheadI love to sew and to try new projects so I was hoping that this book would be right up my alley. Unfortunately, it has a lot of projects that just don't spark any interest with me and they don't seem as creative now that I have the book in hand.This would be a great present for a beginner sewer.0 of 0 people found the following review helpful. LOVE LOVE LOVEBy Jessica DawsonI adore this book. So many cute ideas and (so far) the patterns are easy to use and make! I made the comfy pants into capris and will definitely be making more items out of the book.7 of 8 people found the following review helpful. Worth the price!By SE MomI love the fox quilt on the cover, and saw an article featuring the author in Mollie Makes magazine, but I was hesitant to purchase the book because it seemed fairly expensive. Well, it includes paper patterns for almost every project in the book! The only reason I didn't give it five stars is because there are full pages and pages of beautiful photography of random things, while the instructions are in a smaller font and sometimes cramped. I think it would have been nicer if the (admittedly lovely) inspirational photos were either smaller or kept to a minimum, and more room was given to instructions and diagrams.

Learn to make cushion covers from second-hand shirts or a simple sundress for lazy summer days with this gorgeous book for beginning sewers and crafters, from the author of *Meet Me at Mike's*

"This friendly, engaging work might please the sewer seeking projects in the contemporary and adorable vein."
