My great grand father built one from scratch around 1900 and the motored on the James River on the weekends. Family stories are he even built the motor as he was a millwright for the British American Tobacco Company. 0 of 0 people found the following review helpful. Great Starter Information. By Xarkzila Great book if you're looking to get into wooden model ship building. I knew nothing about the process before reading this and while it doesn't contain ALL the answers, (no book does,) it provided me with the basics I needed to think through constructing my first wooden ship model.

Written in an engaging, conversational style, this comprehensive guide leads the reader through every aspect of ship

modeling, from how to scale-down plans and what glues and paints to use, to how to build a ship model in a bottle and where to turn for more help.
