Marcianne Miller : Silk Flower Arranging: Easy, Elegant Displays before purchasing it in order to gage whether or not it would be worth my time, and all praised Silk Flower Arranging: Easy, Elegant Displays:

0 of 0 people found the following review helpful. Good GuidelinesBy rose thymeGood basic information on arranging silk flowers. Instructions on preparing containers, shapes of arrangements, types of faux products. I probably would not ever have the same materials to make arrangements just like the ones in the book, but could surely substitute other type of flowers, etc. Interesting possibilities.5 of 5 people found the following review helpful. 15+ year professional designer enjoyed this bookBy RSTI purchased this for my mom for her birthday, along with a few other arranging books. I have done this for the last few years. This book, in particular, explained reasons for certain style elements she'd never heard. She is a 15+ year professional designer who regularly attends professional seminars on modern style emerging trends.I can't say that I have an opinion on the book, but as a gift, this book earned kudos by the designer that no past books have earned.0 of 0 people found the following review helpful. Five StarsBy OlyaHelpful

Quick, easy to make, sophisticated, and elegant: these 40 silk flower arrangements are well suited to today's busy

home decorator. The basics of designing that are illustrated and presented here will soon have the arranger making creative leaps in styling. Put the new, more life-like than ever, silk flowers in treasured tiny vases, go "simply exotic" with Chinese-red blossoms and a single bold leaf, or make an everlasting, never fading bride's bouquet. Show off a bucket of tall blossoms, artfully arranged to look as if you've just carried them in from the garden; the version shown here has blue and white delphiniums, lupine, and bells of Ireland in a silver container, but you can select your personal favorites. Hang a unique sylvan wall sconce: with its leafy greenery, ferns, and berries, and a grapevine nest hidden amid the flowers, it captures the beauty of a wild meadow. Plus: Designer tips and project variations expand the decorating possibilities.
