Bisley Bible artBy BramIf you like the Bible, both Old Testatment and the New and the images it brings up or you are just a Bisley fan you'll love this book. I happen to be both. Bisley evokes great feelings with his images and there's a uniqueness in Bisely's interpretation that still feels and draws on the traditional biblical images. its a great addition to my art book collection and my Bisley collection.24 of 29 people found the following review helpful. Not what you think it isBy D. P. MitchellOk, we can all agree that Simon Bisley is awesome. Most of us know his art "Slaine: the Horned God" and Heavy Metal magazine. So you get this book thinking it will be a book filled with his paintings, right? Nope. There are a few paintings, and they're terrific, but most of the book is pencil art, and a lot of that is his practice sketches for the paintings. Good art, but a letdown for a book

that is advertized as being a book featuring his paintings. If you're a nut for rough pencil work you'll love it. But if you're a fan of painting (like me), don't waste your money on this book.
