Paige Gilchrist : Simple Flower Style: Fresh Arrangements for Today's Home before purchasing it in order to gauge whether or not it would be worth my time, and all praised Simple Flower Style: Fresh Arrangements for Today's Home:

Effortless, charming, and simply elegant: contemporary flower arrangements have a clean, uncluttered look so different from the lavish displays of yesteryear. Bursting with easily copied designs, this modern approach to floral style offers endless inspiration. Choose from ideas for single blooms and combinations, or ones that emphasize shape and scale, color, settings, containers, and fun adornments. Just picture daisies in vintage soda bottles, simple white sprays spouting out of bamboo stalks posing as vases, or a purple rhododendron in an electric green martini pitcher. You'll find it simple to access information on exactly the flowers you have on hand or for particular decorating needs.

Plus: tips on picking the best blossoms from either the shop or the garden.

From the Back CoverThe charm of these stylish floral arrangements is that they look so effortless. The joy of them is that they really are. A handful of readily available supplies and a few easy techniques are all you need. Whether you display one bloom or combine several varieties, play with shape and scale or show off magnificent shades, your creations will be casually elegant. Let daisies peek out of vintage soda bottles, wire white roses to river stones, or flaunt a spray of purple rhododendron from an electric-green martini pitcher. Even create your own designs using some flower-arranging basics, from how to choose a complementary container to ways tailor a display to its setting.
