Lots of reference materials in both the front and the back of the book (features of different oils, examples of scent blends, troubleshooting). Tons of recipes from a basic "no frills" bar, through all sorts of tiger striped projects which I may actually try some day after I practice a bit. The book is a lot of fun as well; Jan clearly likes soap-making and also teaching soap-making. It is a joy to read a book which is well-written by someone who has a real passion for and expertise in her subject. I made my first batch today!0 of 0 people found the following review helpful.
