I have other books in this series. This one, like the others has wonderful photographs showing the various projects and includes detailed instructions and templates for completing each project.

Winning ways with Wire!
By J. Diaz
Liked this book so much I bought it twice... because my friend liked it so much she took the first one from me! The instructions are clear and the items shown are things a person would actually use and enjoy!

Functional, decorative, and ideal as gifts, the attractive projects in this guide include a planter, garden basket, candle sconce, fruit bowl, spice rack, bird cage, and soap dish. Readers will also learn to make metal picture frames, and are shown repoussé foil techniques for decorating chests and small boxes.
