Sue Nicholson : Simply Sensational Scrapbook Cards: Over 30 Great Card Designs Inspired by Your Photographs before purchasing it in order to gage whether or not it would be worth my time, and all praised Simply Sensational Scrapbook Cards: Over 30 Great Card Designs Inspired by Your Photographs:

0 of 0 people found the following review helpful. Fun, funBy Shelly C. There are a ton of ideas! It makes card making easy and fun. She uses photo's in all of her designs, which is a fun way to personalize your greeting cards.0 of 0 people found the following review helpful. Cardmaking BookBy CraftbugI purchased this book because I was interested in the card (bottom middle) that is featured on the cover. I love all of the designs that are featured and hope to make several of these in the near future. Great book and would recommend it.7 of 7 people found the following review helpful. Creative Keepsake Cardmaking - Wow!By CustomerEnjoy creating special keepsake greeting cards for all

types of occasions? Learn to use family photos, from current to vintage, and your paper-crafting tools in *Simply Sensational Scrapbook Cards*. The card projects are for those of us who like to play with papers, punches, ribbons, glues and embellishments. They celebrate the recipient in such a thoughtful way that they're sure to be treasured. If you are a beginner, the first sections are a great introduction to cardmaking, and if you are an experienced scrapbooker or cardmaker, you'll probably pick up a technique or two. The card projects are also full of neat techniques and designs. Unlike some cardmaking books, the author discusses her design decisions. She doesn't assume that you will blindly follow her design, and instead encourages you to use your own materials. There are 10 various card projects included and a few envelopes and a presentation box. The cards range from simple folds to elaborate multi-panel cards and miniature albums. The instructions are step-by-step with lots of photos and extra tips. For many of the designs, the author shows how it can be adapted to other occasions. An extra section at the end shows ideas to adapt the card projects to scrapbook pages. There's a lot of ideas and techniques packed into 10+ card-making projects, and any cardmaker will enjoy this book.

Over 30 card designs inspired by photos introduce scrapbooking techniques and materials to card makers, while scrapbookers will discover the joys of card making.. Clever yet simple construction, including flaps, pop-ups and pockets, ensures cards that are always original and exciting...Handmade mini-scrapbooks allow the reader to transfer the construction skills from cards to pages.. Includes the most popular celebrations for cardmakers and scrapbookers, including children's celebrations, Mother's and Father's Day, milestone birthdays and romantic occasions.

From the Author *Scrapbook Cards* is my second book for David and Charles with "Surprisingly Simple Novelty Cards" being my first. Like my first book, it was a complete joy to put together and, whether you are a card-maker, scrapbooker or paper-crafter, I feel confident that you will find lots of ideas and inspiration within the pages. I begin with plenty of tips and ideas and, irrespective of your card making/scrapbooking experience, I am hopeful that there will be something in the first section for everyone. Next I take you through a variety of card designs and show how to add photographs to create a "scrapbook card". I start with simple tall and square card formats then progressive on to variations that include extra folds, pockets and pop-ups. This section then concludes with an unusual zigzag card born from my love of novelty designs! Still keeping to a smaller scale I move on to give instructions on how to create three very different mini albums. Finally I conclude with instructions on how to size and create two different envelopes or a box for your card/album plus ideas on how to transform your card designs in to scrapbook pages. There are step by step instructions and throughout I have endeavoured to give you an insight in to my reasons for choosing particular papers, embellishments etc. At all times I was fully aware that your photos would be different to mine and therefore you may need to appreciate why I chose a particular colour etc. About the Author Sue Nicholson is a regular contributor of rubber stamping and papercrafting projects to *Popular Crafts* magazine, and is the author of *Surprisingly Simple Novelty Cards*, also published by DC. Sue lives in Altrincham, Cheshire, UK.
