I was hoping there would be more crafting ideas, but there are just a handful of them and not things I am very interested in :( Like other reviewers said there are too many desserts and when I do make dessert I will use these recipes, but I don't make it often.0 of 0 people found the following review helpful. A must-have cookbookBy RT PerssonThis cookbook is a staple in my home. It's recipes include something for everyone with ingredients that most every kitchen has already. Most of the recipes in this book are family friendly and if I want a "home run" dinner to make fit any reason, this book (as well as the other six sisters cookbooks) is one I automatically turn to for ideas.1 of 1 people found the following review helpful. Overall, a good resourceBy JenI LOVE their blog, and was very excited to get the cookbook for home!First, I love the "stuff" included; the healthy snacks, the different topics covered, a great addition! I love that there is a slow cooker section of the cookbook, and the desserts are wonderful. My only {tiny!} issue is that I really wish there was a larger, and different selection of main dishes. These girls have SO many wonderful recipes on their blog, and you can tell they are so creative in the kitchen, so I was hoping for something different there.I have tried the Baked Chicken Bacon Ranch Taquitos, the 3 jello salads and Snickers Apple Salad, and a few of the indoor activities for kids and great success with all.If you're someone looking for some general inspiration at home, snatch it up! The

crafts, desserts and dishes will be just what you need. The sisters seem to have written this book for women like me, younger moms who need fast and creative ideas, that stay within the budget! However, if you are a cook very experienced with the basics, you may want to keep looking. Overall, I am so glad I added this to my shelf! :)

About the Author SixSistersStuff.com began their blog in February 2011 with six biological sisters (Camille, Kristin, Elyse, Stephanie, Lauren, and Kendra) who love to cook, craft, and create. After years of living close to one another, they suddenly found themselves living in different parts of the country and used the blog to stay in touch and share ideas.
