They are coming for Christmas and this is a year of new snow sleds, snow flingers, snowball makers, and this book. I especially look forward to the Magical Lights chapter that has night snow men with lit up eyes, I think these will be beautiful and a lot of frosty fun.They love the book. My son wants to involve his entire town to organize a town wide contest for next year. He wants to see lit snow sculptures in everyone's front yards. They are currently working on a lochness snow monster sculpture, an igloo, and lighted glowing snow formations. Next will be the giant snowman that will be taller than their house when they get done. Of course it will be lit up this year after reading this book. I hope that they make it onto the local news-- they are having lots of fun. This book is going to help insure lots of family fun memories.0 of 0 people found the following review helpful. Snow

creativity!By Edith A. Anyone who lives in snowy country will love this book, regardless of your age. There are both complex AND simple ideas for creativity in the snow. If you're in powdery snow country, the book tells you how to make "sticky" snow so you can build things with it. I have become famous in my neighborhood for snow sculpting--the kids love to help!0 of 0 people found the following review helpful. Cleaver book for making things out of snowBy moabmikeI purchased this book for my niece for Christmas along with a snowman kit and block maker and snowball maker. The book is just great! It has so many cool snow building ideas and the photos are very well done. Very pleased and hope my niece was too and that she gets lots of use out of the book.

DIY goes outdoors, giving winter enthusiasts more than 25 new ways to play in the snow!Calling all snow loversyoung and old alike! When youre surrounded by the white stuff, its time for Snow Play! With crazy creatures to build, challenging games to play, and outrageous spaces to sculpt, author Birgitta Ralston, a Europe-based designer, has imagined the most creative ways to play in the snow. From a looming Loch Ness monster to a slippery Ice Slide, from a Snowball Lantern to brighten a yard to Curious Footprints to mark freshly fallen snow, the book includes 25 projects and games to draw you outdoors on a snow-filled day. Celebrate a winter birthday by building a giant Frosted Cake (and use food coloring to dye the snow!), or light your walkway with the flickering flames from a set of snowy Glow Cones. Youll find hours of entertainment to brighten even the coldest winter days and nights. Snow Play is filled with projects and games for any age, ability, and number of people. Each entry includes complete step-by-step text instructions, plus explanatory line drawings. The full-color photographs show how each project is finished in all its frozen glory.
