I highly recommend this book, as I have read a lot of books on soap, and this one cannot be beat. The author does an extraordinary job of explaining the "in's and outs" of soap making, and includes hundreds of recipes for everything from homemade hot process, cold process, and melt and pour soaps, soap creams, liquid dish and laundry soaps, kids crayons, other household homemade natural cleaners, and includes a whopping extra 45 "bonus recipes". You can tell she really put her heart and soul into this book, and let me tell you...I can't thank her enough for it! How nice is she? No, I don't know her, but I feel like I do, as she pours out her personality and wealth of knowledge into this book. In doing so, she saves the rest of us a lot of "soap fails", headaches and includes "tried and true" tips and pointers, to guide us along on our soaping adventures. It's definitely the best soap book out there, in my humble opinion. I'm unsure how she can afford to make any money on the book, only charging a miniscule price for all of that knowledge! I'd recommend her book to anyone interested in this hobby.0 of 0 people found the following review helpful. Was a let down for someone looking for recipes from scratch... the ones that weren't melt and pour had lard, tallow or palm oil.By ChirkaDisappointing
