at homemade is a great guide as it helps us making different kind of soap at home itself without adding any kind of chemicals. Its also very safe to use as its done by us. These soaps re chemical free which is very important as store bought soaps are usually full of chemicals and makes you skin dry and harms it. But this guide just help you in many ways with different kinds of flavor according to you taste. I just loved it and a recommended one!!0 of 0 people found the following review helpful. One of the Better Soap Making Guides that I have ReadBy StephanieIts a great book on soap making, one of the better ones of a few I have read on this subject.It begins by exploring the question that why would we consider making our own soaps whenmarket is full of ready made soaps. The reason is that it gives us the flexibility of choosing theingredients we need in our soap according to our skin type or skin requirements. The book explains thecold process of soap making, the precautions to be taken while making soaps, the special equipment thatyou will require and some great tips on additions you can make to your soaps to get what you want out of them.1 of 1 people found the following review helpful. Five StarsBy MarshaGood Read, very insightful
