By Michael S.I found this book to be very helpful. First of all, I have very sensitive skin and it has always been hard for me to find a soap that does not make me itch all the time. I liked how the author walked you through step by step. Each ingredient is laid out very well, and the instructions are easy to follow. I think that pretty much anybody could make their own soap using the methods in this book and I can't wait to try it. It was a quick and easy read but packed with great information.

By Rhonda OkonkwoThis guide is about making soap, which is weird and I understand this. But after reading and executing the methods, I'm really happy I bought this. Soap has never been so good for me. If you try this out, you will see a huge difference between your own soap and soap bought in the store. Self-made is so much better, I really love this guide. Definitely recommend this if you want good soap.

Soap making is a fun and rewarding hobby that you can also turn into a business once you have successfully made your first batch of soap. In this book, you will get to know the different ingredients, tools and processes on how to create soap. Soon you will get to know the basic steps on how to process soap. There are mainly two basic processes, the Hot Process and Cold Process. But before moving on to these two, lets first discuss a very useful online tool that you can use in formulating the perfect soap recipes Soap making is a fun filled activity that anyone can enjoy. The sense of accomplishment in producing something that is useful in everyday life can build ones self confidence and self esteem. You can even add a personal touch in the soaps that you will make by adding some of your favorite oils and scents. Natural soap has a greater advantage in terms of skin moisturizing than commercially manufactured soaps because of the ingredient glycerine that will be left in the soap. In commercially manufactured soaps, glycerine is filtered out of the soap and sold as a different product. Glycerine is an ingredient that is responsible for retaining water in the skin, leaving it soft and moisturized. Homemade soaps can be used as gifts to your friends and relatives during the holidays. Surely, they will appreciate the effort you put into making the soaps as well as the skin health benefits they have. These homemade soaps can be income generating as well, for you can sell your nice smelling products in stores that support selling of natural and homemade goods, or in the internet. About the Author
Hi, I'm Lindsey P. I am a proud wife and stay at home mom. After my first child was born, I started to focus on the ingredients used in our everyday health and beauty products. The more and more research I did, the more nervous and upset I became towards companies and their lack of care towards consumers. Fast forward two years, shortly after having my second child, I was diagnosed with Thyroid Cancer. During my fight against this disease, I began researching possible causes. I soon began to learn just how many harmful ingredients were not identified on product labels. I vowed once I recovered to share my knowledge through my newly established company producing all natural products, that include soaps, balms, bath salts, etc etc. My books are intended to not only educate, but also to share the knowledge and passion that I have gained through my struggles over the last few years. I hope you enjoy my books. Happy reading!
