And so do my friends!By Marjorie ToppomFirst off, Im a total soap making fanatic since I read this book and used some of the terrific recipes. If you have ever wanted to make your own soap with your own natural and organic ingredients, LeFevres book is a must! I really like to know whats in my soap, and by making it myself, I feel better about using it on my skin. Using the authors tips and easy to follow instructions, I made such a beautiful batch of soap, I actually gave them away as gifts, and my friends asked

where I bought the soap. When I told them I used Soap Making For Beginners to make my own soap, they downloaded a copy for themselves. I most HIGHLY recommend this book. I just loved it! 1 of 1 people found the following review helpful. Soap making By Bianca Fiechter This book is full of creative recipes to make melt n pour soap. The title is misleading, I thought I was getting information on how to make real soap. I rated it at 4 stars rather than 5 because honestly.....I do not say this to be mean.....this book is severely lacking in the grammar and writing departments. The directions were spotty at best, with ingredients listed and then completely left out of the recipe. Not editing the directions for spelling and grammar is not only distracting and annoying, it is unsafe. Invest in spell check. 0 of 0 people found the following review helpful. A great soap making book for beginners.. By Kimberly I've always been interested in making my own soaps, but I thought that it would be too complicated. I was proved wrong when after I've read this book. This book imparts relevant information about soap making, anything you need to know about soap making and the types of processes used to make soaps. I loved the recipes here, I've already tried make some of them. Best thing about this is that it uses natural ingredients.

If you've always wanted to try soapmaking. If you've always wanted to create your own homemade soaps. with or without experience in soapmaking or cooking. All the recipes are easy to made and explained step by step. Its really fun, You can control the ingredients, you can choose the color and the shape.
