Geraldine McDaniel : Soap Making Made Easy: Making Soap from Scratch before purchasing it in order to gage whether or not it would be worth my time, and all praised Soap Making Made Easy: Making Soap from Scratch:

0 of 0 people found the following review helpful. DisappointedBy CindeeDon't find this book easy to use. Other books I have purchased are more user friendly.

"Soap Making Made Easy: Making Soap from Scratch" is a book that explains what exactly goes into the soap making

process. This book is a bit more technical than the other books that are currently in circulation as it really gets in to specific detail about the ingredients that are used to make soap. In addition to all the educational information that is provided about the soap making process there are also some great soap recipes that the reader can try.
