"Q" is for Horseshoe Crab, no, really.By DaleYes, this book has some of the usual culprits, like an elephant, a pig and such, but it also has more unusual animals like a ram, and ostrich and a horseshoe crab! (Under "Q" of all things.) If you want to get away from the ordinary stuffed toys, or, as in our case, want to expand beyond teddy bears, check out this book.1 of 1 people found the following review helpful. Why is this amazing book out of print?By R. WolaninCarolyn's designs are outstanding to say the least! It's a shame that this appears to be out of print. It is concise, well photographed, colorful, ease of layout. Any most soft animal design techniques are easily found in these pages if you simply study the patterns and photos. Okay, yes, the book is patterns but really, it is so much more and my favorite out of my extensive library of these types of books.0 of 0 people found

the following review helpful. Best Book in it's fieldBy Carol R. PettsThis is by far the best pattern book for animal. I have looked all over for patterns to make for classic children's books and this book is just what I have been looking for, Thank you.

Every kid loves stuffed animals, and Carolyn Hall's love for children shows clearly through the time and care she's put into every realistic animal pattern featured here. From armadillo to lion and monkey to zebra, sewers will have fun following the detailed step-by-step instructions for creating 26 soft, stuffed playthings for their favorite children. Each pattern was thoroughly tested to ensure that the average crafts person could easily create most animals.

About the AuthorCarolyn Vosburg Hall is an accomplished author of 14 books on arts and crafts topics, including Sewing Tiny Toys and Christmas Omaments. She has written for Threads magazine, Fiber Arts magazine, Woman's Day, and many other US magazines and local newspapers.
