I have built the flowform Way too much kite for me, 2- 2 cell. and drogues. I put ink on the fabric where to stitch, and stitched them kinda slow with 1/2" seam. Nice thing about these kites is there are no sticks. The kites in this book are not stunt but I do like them. How to stitch these (inside out) takes some thought and is covered. knots are also covered. I put the offset table information in my drafting program and made full sized paper patterns for the kites. I gave my kites away, so I needed the book. :@)0 of 0 people found the following review helpful. Five StarsBy Kindle CustomerVery detailed information.
