BoothThis book is fun to just look at and absorb all the talent within the pages-----then moving on and really enjoying the experience of making these little treasures keeps me going back to make them all. The book spurs the reader onto wanting to explore the world of coming up with their own ideas and patterns. It is definitely a book for a mother/daughter (or son) to sit down together and make a day of fun-time and memories.0 of 0 people found the following review helpful. Fun and Different ProjectsBy Stephanie BrownThis book is a lot of fun to look through. There are so many different types of projects I can't imagine anybody not finding something that suits their tastes. Just as there is an array of design styles are a good variety of techniques and materials used. A lot of fun to look through and work from.0 of 0 people found the following review helpful.
