Beautiful Quilts from One ShapeBy quiltmomA friend made a stunning quilt from this book, and although I haven't made one from it yet, I love the simplicity of using only half square triangles to create complex-looking designs through the use of color. It is a GREAT guide to the use of color -- always nice for those of us who are color challenged and also nice for those of us who have 'stashes' we wish to use in a beautiful way! Clearly illustrated with lots of photos of very pretty quilts!0 of 0 people found the following review helpful. It's a great book. I bought this as a gift for ...By K. Buteault's a great book. I bought this as a gift for a friend. I've owned my copy for ages and use it for inspiration all of the time.0 of 0 people found the following review helpful.
