This particular book focuses on the stitching potential of hand-crafted yarns and threads; a refreshing deviation from the usual focus on yarn for knitting or weaving alone. Enjoyable, clear instructions and technique suggestions, well-considered diagrams and other informative pictures, and a thorough resource section in the back make this a great collection of information for creatives both new to and experienced in the skills demonstrated therein. 2 of 2 people found the following review helpful. Great book for a beginner By Val Arias I knew absolutely nothing about spinning or dyeing. This book gave just enough of an introduction without overwhelming me with knowledge. It grabbed my interest enough that I want to start my own

Spin Dye Stitch features everything the fiber artist needs to know to turn wool roving into beautiful one-of-a-kind handspun yarn and dyed fibers. Instead of a boring 'how-to' book, author Jennifer Claydon shows you how to work with the fibers in a practical format, with clear step-by-step photos and beautiful projects featuring knitting, weaving, embroidery and needle felting.

About the AuthorJennifer Claydon's passion for the fiber arts began at age six when she picked up her first pair of knitting needles. While she is currently focused on spinning and knitting, her diverse experiences in the fiber arts also include dyeing, weaving, quilting, felting, embroidery and embellishment, crochet and lace-making. Jennifer works as an editor for the Krause Publications craft team where she finds unending inspiration for her work.
