**Judith Neiswander, Caroline Swash : Stained and Art Glass: A Unique History of Glass Design Making (Intelligent Layman's)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Stained and Art Glass: A Unique History of Glass Design Making (Intelligent Layman's):

0 of 0 people found the following review helpful. Five StarsBy C. J. KingNice1 of 1 people found the following review helpful. BeautifulBy F. GilesGift recipient who works in stained glass was "gobsmacked" when she received this book. Says it is beautiful and inspires ideas.3 of 5 people found the following review helpful. Not worth the moneyBy CustomerI bought this book and paid quite a bit of money for it. I was disappointed. With that being said, it's a great book, but only if you get it at a good price, and realize that it's not a "how-to" book. There's a lot of photos on all types of museum-type glass artwork. I bought it to get ideas, and there were only two or three photos that I felt were modern enough for my style of glass work. It's a large book! Lots of pages with photos. The cover photo is the best. A great gift for someone who loves the history of stained glass and glass artwork.

Investigates the world of art glass, old, new and international.
