CannonThis is a fabulous book! It's great for the novice, with detailed info and it's great for the seasoned crafter as well. I just adore the projects. The price is unbelievable; I've paid more for single project plans. I highly recommend this book!

Not only are the techniques for both copper foil and mosaic stained glass completely demystified here, but all 25 projects take only an afternoon to complete. Start with a Tulip Panel, the perfect first project, so simple and pleasing. Learn and use the proper tools, cut, assemble, solder, frame, and finish. You'll be proud as a peacock of your lovely Peacock Lampshade. Plus: corner accents, beautiful boxes, welcome signs, bird baths, and more.

From Booklist This book reads like the print version of a television show, with clear and bright visuals, easy-to-follow directions, and a crisp narrative about supplies, equipment, and successful tips. Artist Payne has specialized in promoting this medium on television, and her instructions, plus the 25 half-day projects, will appeal to anyone, even those without soldering experience. Beginning chapters concentrate on pictures and brief descriptions for different sets of tools and supplies, such as opalescent and cathedral glass; glass-cutting, breaking, and smoothing tools; soldering and pattern-making supplies; and safety gear. The projects are kicked off with the same attention to detail--oversize photographs illustrating the step-by-step directions for a tulip panel, followed by boxes, clocks, ornaments, window accents, candleholders, and a host of well-designed decorative accessories. In fact, here are a total of 25 great projects that each take only a few hours to create, without any previous experience. In no time you'll learn the techniques and then marvel at the rich colors, gorgeous textures, sparkle of the glass, and soft gleam of the metal edging on everything you craft. From colorful window ornaments to terrific tabletop accessories, these projects are stunning, quick, and easy. Make two or even three this weekend!
