Josep Asuncion : Stained Glass before purchasing it in order to gage whether or not it would be worth my time, and all praised Stained Glass:

1 of 1 people found the following review helpful. Really nice, great photos!By MeindokLove the book. Love that you can make stained glass sheets without having to blow glass! WOW! I don't like the fact that there are so many "author" names for this book. But, truly that is the ONLY negative I could find! :) Was worth my \$10.00 especially since so many others I have found are many, many times more than that! My seller was AWESOME. Visit me at The FilaEstonian!
