This was one of my favorite calendars from 2016 and I was very pleased to see a new version offered for 2017. I love Sue Spargo's work. Her wool applique pieces are filled with beautiful embroidery stitches, fabric layers and texture. The calendar measures 12 X 12 but unfolds to 12 x 24 to showcase all the beautiful

stitches and textures found in Sues work. Each month offers a beautiful photograph of some of Sues work. The at-a-glance dates are tastefully located in the lower right hand corner of the page which also has detailed photographs from the featured work. I will keep this calendar in my library right alongside Sues books once the year is up. Time seems to be flying by faster and faster these days so why not take a moment to savor the work of a master as you change from month to month. So much inspiration!0 of 4 people found the following review helpful. Sue spargo calendarBy DebiNot what I expected4 of 4 people found the following review helpful.
