Better Homes and Gardens : Studio Spaces: Projects, Inspiration Ideas for Your Creative Place (Better Homes and Gardens Cooking) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Studio Spaces: Projects, Inspiration Ideas for Your Creative Place (Better Homes and Gardens Cooking):

3 of 3 people found the following review helpful. Great ideas for any size craft/hobby space By Renofund I marked several images in this book to incorporate into my basement craft room. Excellent planning tool, I actually made some adjustments to my craft room layout based on what I read and saw in this book. You can never have enough storage, especially if you enjoy multiple crafts (sewing/quilting, drawing, painting, jewelry-making, upholstery, etc.). Since I do not get as much time as I would like for crafting it is very important to have a well-organized space, where I can find what I need when I need it. 12 of 12 people found the following review helpful. Studio Spaces - a photo album By E. D. Johnson This is a very nice photo album of some very nice studio spaces. HOWEVER, it doesn't indicate how to duplicate them, where to get materials, how to keep them looking that way, etc. Inspirational but requires research to duplicate. 0 of 0 people found the following review helpful. Great Book for Organizing ideas! By older wiser I checked this book out at the local public library and loved it so much--I decided I had to purchase a copy of the book. As you can see I did and love it. There are all kinds of ideas for storage and making things to use in a craft/sewing room. Various studios are visited throughout the book and each one has wonderful ideas to implement in your own space. The last chapter gives you close up ideas for projects to make, which can be used in your own space. Love the book. If you are trying to organize a creative space in or out of your home, this is the book to read.

Create, update, and organize your creative workspace With the economy still in a slump, handmade isn't going anywhere. In the online and print crafting worlds, craft and art studios and workspaces are extremely popular topics and storage and organization is a perennially hot topic. Combining the two brings together the best of both
