Renowned New York based floral designer Lewis Miller presents a fresh take on the arrangement and display of

flowers discussing the approach to and the inspiration behind his lavish creations. Lewis Miller's first book features lush, naturally lit still lifes of his beautiful arrangements and compositions. The designer, who has a background in horticulture and landscape design, describes his work as "sumptuous nature." Organized by key factors that are considered for each piece—color, composition, movement, shape, and texture—the book is elegantly illustrated with Don Freeman's painterly photographs and explains, arrangement by arrangement, the thoughts and motivations that guided the process. Vivid images of brightly hued poppies, roses, hydrangeas, and tulips explode on each page. Miller also discusses his sources of inspiration, notably seventeenth-century Dutch still lifes. The images and words will give the reader a profound insight into the artistry of flower arranging, providing the impetus to create floral works of one's own. Additional information will cover ways to handle and arrange flowers, prolong the life of an arrangement, and incorporate flowers into special occasions or simply into our everyday lives. The luxurious display of flowers will inspire and delight decorators, gardeners, brides-to-be, and connoisseurs of beauty.

"There is a stillness and beauty in the foliage and blooms that floral designer Lewis Miller selects for his arrangements. His airy work brings sprigs of pine trees, poppies or wild strawberries into both the dark corners and light-filled windows of New York flats and boutiques. . . [Styling Nature] includes images of such combinations that only a trained horticulturalist could dream up." - C MAGAZINE "Feel free to judge this book by its cover. . . [Lewis Miller] pairs the unexpected, bucks the trends of floral design, and has a restlessness about him that inspires him to continue pushing aesthetic boundaries in his creation of elegant masterpieces. Link him with photographer Don Freeman, who collaborated with Miller for ten years, using only natural light, and the results are bewitching." - CourtneyPrice.com "Styling Nature represents a match made in heaven with renowned New York-based floral designer Lewis Miller and acclaimed photographer Don Freeman. . . Styling Nature encourages us to incorporate flowers into our everyday lives, and will embolden connoisseurs of natural beauty who want to take this soulful domestic art into their own hands." - CULTURED LIFESTYLE "In Styling Nature, techniques inspirations are shared, and captured in in natural light and backdrops. . . Lewis Miller and Freeman capture the beauty and elegance of flowers, and it's a delight to pore through the pages to just look - and to be inspired." - LITTLE AUGURY BLOG "More than merely a collection of flower porn, [Styling Nature] is organized into five categories - color, composition, movement, shape, and texture - and includes an appendix that is a handy guide for anyone who wants to try their hand at creating these arrangements. . . Miller offers a portfolio that is as approachable and inspiring as it is beautiful." - GARDEN DESIGN MAGAZINE "Styling Nature: A Masterful Approach to Floral Arrangements is a treasure. Shot by the photographer Don Freeman, an artist in his own right, every page is worth a long gaze. The book's glamour is inescapable, and there's nothing mundane about Miller's prose. . . Lewis uses flowers easily found at nurseries and markets in his boldly romantic arrangements. Be inspired. Or be lazy: Prop the book open on your coffee table and turn the pages to enjoy a new bouquet every day." - THE NEW YORK TIMES About the Author Lewis Miller is an acclaimed New York-based floral designer. Since 2002 he has been the proprietor of LMD New York, making flower arrangements and creating party environments for private and corporate clientele, including Givenchy, Chanel, Bergdorf Goodman, Bulgari, and the Whitney Museum.
