Connie Eaton : Suncatchers Stained Glass Pattern Book (Dover Stained Glass Instruction) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Suncatchers Stained Glass Pattern Book (Dover Stained Glass Instruction):

0 of 0 people found the following review helpful. Good variety
By ErinNice variety, however some of these patterns seem too elaborate for mere suncatchers. Will have to enlarge or simplify to keep them this size. Most of the patterns in this book are simple; great for a beginner or a pro.
0 of 0 people found the following review helpful. Five Stars
By Renee RichGreat book
1 of 1 people found the following review helpful. Good Solid Reference book for your pattern library
By KC CowgirlGood standby of patterns to add to your library. Nice mixture of simple and moderately complex patterns. I'd recommend for new to early stained glass artists.

Delight the eye and please the spirit with attractive stained glass sun- or lightcatchers. When time's at a premium, craftworkers will find miniature stained glass art just the thing to satisfy the creative urge. Lightcatchers need far less time to complete than larger projects but still produce a rainbow of dazzling colors. With over 100 patterns to choose from, beginners can fashion a butterfly, birds, flowers, toys, a whale, dolphin, and candle. For advanced craftworkers, there's a more challenging cornucopia brimming with fruit, a smiling sun, and a clown. Hang these stunning showpieces in windows, on lampshades, in front of burning candles any place where they catch and refract light. The results are spectacular. Templates of sturdy stock (many in actual project size) are ready to be cut out. Patterns can be enlarged, reduced, or used as is to suit personal needs. Stained glass artists will want to add this affordable volume to their working libraries as a source of gift ideas, holiday decorations, or simply to create unique items for personal enjoyment.
