DC Comics : Superman in Action Comics: Volume 2, Featuring the Complete Covers of the Second 25 Years (Tiny Folios) before purchasing it in order to gage whether or not it would be worth my time, and all praised Superman in Action Comics: Volume 2, Featuring the Complete Covers of the Second 25 Years (Tiny Folios):

2 of 3 people found the following review helpful. A "Must Have" for any comic art fan!By Picardfan007This book gives you each of the Superman covers. The second twenty five years are a little more polished and better than the first twenty five. The artistic simplicity and style of the times are apparent in this volume. A more innocent time; where comics did not attempt to recreate Frank Miller's "Dark Knight" with each passing month. The "Death of Superman" story did little more than make the character into a darker version. I'm glad the "All American" Superman is back though. His current stories reflect the classic character we all know and love.

This addition to the Tiny Folios series offers a second set of covers from the Action Comics which featured Superman.

Superman burst on the American public in 1938, in the first issue of Action Comics, laying the foundation for all the Superman stories to come.
