Mark Jacobs : Survival Gear: Items You Will Need To Survive (Survival, Survival Gear, SHTF, Bushcraft, Survivalist, Preppers) (Volume 1) before purchasing it in order to gage whether or not it would be worth my time, and all praised Survival Gear: Items You Will Need To Survive (Survival, Survival Gear, SHTF, Bushcraft, Survivalist, Preppers) (Volume 1):

1 of 1 people found the following review helpful. Good survival gearsBy SteveRWe all need to know what the basic gears that we need are and we want to be safe every time. When I saw this book I get it quickly and read it. This book has a good beginners survival gear that we all need. This is a must to survive in the wild or in any place but this book needs to show more beginners survival gear. For me this book is a good read when you dont know where to start.0 of 0

people found the following review helpful. Good for beginner survivorlists
By Nate Amy
With everything that is going on in the world nowadays it's important to know about survival gears. I'm already a prepper myself so a lot of the information provided in this guide was information that I already knew. I would recommend this to people who are newer to survival so they can get an overview on how to get started. I received this book for evaluation with a request to provide an honest review. Getting a free product does not influence my review, this is my honest evaluation of this survival gear book.
0 of 0 people found the following review helpful. Great for any campers, hikers or survival lovers!
By Lily Eyrat
I loved the tips in this book. This is great for any survival or even camper or hiker in your life. (It is also a great gag gift for anyone who believes the world will be ending soon.) I would say that some of the tips are common sense, but many of them I would have never considered, even as a frequent camper and hiker. I would pair this product with a few of the items recommended so that you can get your survivalist started! Additionally, I think everyone can learn from survival information just to ensure in an emergency you do not end up in a really bad situation. Merely understanding some gear to have around the house or in the backyard is good for general information as well!
