**Tammy Tadd, Leisure Arts : Taddpole Quilts for Baby (Leisure Arts, No. 3518)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Taddpole Quilts for Baby (Leisure Arts, No. 3518):

Following the instructions exactly as given I found two major flaws in the directions. I then ripped out 48 pieces and re- constructed them accurately. The designer of this quilt also wants pieces cut to the size of 3 and 3/8ths, to fit with pieces that call for a 1/4" seam. Not surprisingly, the finished squares do not fit together properly. It's a mess. I thought I would make the quilt "A star is Born", by the same designer, but am fearful now that I will spend more time correcting pattern errors and ripping out seams than making headway with the quilt. review helpful. Enchanting quiltsBy Annie WolfThis book has adorable patterns, both pieced and appliqued. Detailed lists of supplies and instructions are clear, concise, and easy to follow. Illustrations are colorful and attractive . Not simple patterns but I believe even someone inexperienced in applique, piecing, and quilting could make some of these with a little patience and time.

These 7 clever quilting creations by Tammy Tadd are just right for wrapping little ones in homemade love. From bears and bugs to stars and pinwheels, these patterns will delight Baby and Mom alike. Features simple-to-piece blocks and easy appliques.
