Terri Pointer : Tea Bag Sampler: 30+ Fantastic Folds before purchasing it in order to gage whether or not it would be worth my time, and all praised Tea Bag Sampler: 30+ Fantastic Folds:

0 of 0 people found the following review helpful. A great instructional book on tea bag folding. By Diane I received my book on time and love the clear instructions and pictures for folding the paper. have tried some of the techniques already and will be using them all eventually. 12 of 13 people found the following review helpful. This Book Met My Needs! By C. Allstrom About 8 years ago, after I took a class on teabag folding, I became "enchanted"! I felt that this technique would enable me to make beautiful, somewhat unique cards for every occasion. Most friends/relatives to whom I sent these cards have generally loved them! Although I now have around 8 teabag-folding books, they DO NOT ALL MEET MY NEEDS! Some books show the authors/artists sitting at their drawing boards, with all kinds of equipment at hand, etc. Personally, I have little interest in what Artist "X" is doing, and I certainly have NO SPACE for a drawing board or other paraphernalia! I prefer books that simply show how to execute certain folds, with each

one clearly indicated! This book, by Terri Pointer, which I purchased through .com is one (of only 3 of my books) that I can ACTUALLY MAKE USE OF! Rather than focusing on HERSELF, Ms. Pointer presents her material for the benefit of the reader/user!!! Since I had no chance to personally examine this book before buying it, I REALLY "lucked out"! Simply because a book carries the words "Teabag-Folding" in its title does NOT mean that it is right for everyone; it is extremely important to choose one that makes sense for you!0 of 0 people found the following review helpful. Four StarsBy Grandma DotI donated this book to VVA as I am no longer interested in the projects

Create beautiful accents for any surface with these folded tea bag samplers.

About the AuthorTerri Pointer lives in Washington. She does needlework, stamping and paper arts. She and her husband travel and teach for their company, Stamporium.
