Best Book !By KaniesbearsThe best Bear making book I've seen yet! Very clear easy to follow instructions with beautiful colour photos of the most adorable bears. Would suit any bear creator from novice to more experienced. I like the fact that Ted has shown you exactly where and how to

alter patterns so you can create your very own original bear!!! including outfits to dress him/her in. would Highly recommend this book!!! It will be a keeper!!!!0 of 0 people found the following review helpful. Very good bookBy Tamara McCartyThis book has given me some great ideas. I was especially interested in the area about refiguring patterns to design your own. Have already tried a few new techniques and was pretty successful on the first attempt! I think this will be a great reference book for me.

According to Ted Menten, premier authority on the subject of collectible teddy bear construction, making these plush little companions can be a highly creative pursuit. Unlike other toys that were once handmade and are now machine-produced, teddy bears remain basically the same as they were when first created in 1903. Emphasizing the fun, expressive aspect of this time-honored handcraft, Menten offers a unique new technique developed in his popular teddy bear-making classes, using basic patterns that can be modified and interchanged to create uniquely personal bears any crafter will display with pride. Ted Menten is the author of *Gentle Closings* and *After Goodbye*. He also created the magazine *Teddy Bear Review*, has written 19 books on the subject, and conducts teddy bear-making classes around the world.
