By ChongoI
can't complain too much because right now it's an excellent time to be a TMNT fan especially if your a comics fan.
IDW has been releasing a plethora of content since acquiring the publishing rights to the franchise yet sometimes it
seems to be more of the same in variant versions. Which is totally fine just as this new poster book is really just for the
TMNT completest too. If your like me are a huge fan of the comics absolutely love Kevin Eastman's artwork then this
is a must buy. It's an oversized, tall prestige format art book/magazine like the description states, the pinup art can be
removed for framing each image looks spectacular in full color. Again, only for the turtle completest anyone else who
has an interest in comic book illustration

A beautiful oversized book of Kevin Eastman TMNT covers, each one suitable for framing! 16 terrific Turtle covers,
all by TMNT co-creator Kevin Eastman, with perforated edges enabling fans to easily remove any images for framing.
Your wall will never look the same!
