The Master Impresses Me Again!By Adalberto McFarlaneI can see why artists such as Mark Schultz, Al Williamson (Frazetta's peer and friend) love this style of art. Its classic, it displays a thorough knowledge of not only the human form, but knowledge of design and handling of the tools. I know that we know Frazetta mainly as a painter of Conan, Death Dealer, etc. but now the fans can enjoy the 1950s comic book work of a great illustrator. I am more enamored by this style of illustration, since it equals Norman Saunders, Lyendecker, Alberto Vargas, and Gil Evgren. Purchase a copy to drool over the great art...but enjoy the stories too!0 of 0 people found the following review helpful. I just love this bookBy CustomerAs a Frazetta fan, I just love this book!!6 of 8 people found the following review helpful. Saw advanced copy at san diego comic conBy Mitchell J. MehdyThis book is flat out AMAZING...saw this at bud plant,s booth at san diego comic con and asked them to take it

out of the showcase and let me look at it, first rate all the way...just knocked me off my feet, great printing, amazing color...but the material is just priceless, I have the three fritz art books...but this one takes the cake...I just cant believe the price as you know the limited frit editions were 4 times the price..easily the best buy of the year for thirty sum bucks. This comes with a book slip case also and then on the cover is one the greatest scfi covers fritz ever did which is different than what you see on this website, they could of produced the cover you see twice...I told you this is first rate...I would paid 100 bucks for that copy on the spot in a new york minute but they only had one and turned me down when I tried to buy it, keep you expecations high and you wont be disappointed, I did not think that they could come out with any classic book on fritz since the three great art books covered a lot material...I am gald I was wrong...five stars all the way

Fantasy art's most popular painter was also one of the most popular comic book illustrators during the industrys golden age. Telling Stories: The Classic Comic Art of Frank Frazetta celebrates the rare and largely forgotten stories created five decades ago by this iconic artist. These jungle adventures, true-life tales of heroism, and dreamy love stories not only exhibit the skill of a master craftsman but also provide tantalizing glimpses of where the young artists career would ultimately take him.
