Sid Jacobson, Ernie Coln : The 9/11 Report: A Graphic Adaptation before purchasing it in order to gage whether or not it would be worth my time, and all praised The 9/11 Report: A Graphic Adaptation:

1 of 1 people found the following review helpful. Excellent ReadBy Jay KenneyLove graphic novels, and when I saw that the 9/11 Commissions report had been adapted to a graphic form, I had to have it. Passed it along to my son who introduced me to graphics in hopes that it would give him a clear insight to 9/11. He was only 24 when it occurred and was still working out his political beliefs.1 of 2 people found the following review helpful. Telling History through

graphic art, truly innovative! By Richard C. Geschke At gunpoint you couldn't force me to read the 9/11 Report. What Sid Jacobson and Ernie Colon have graphically done is truly innovative. Not only does this graphic depiction tell the story, it is historically factual. It sets out all the findings, history, conjectures, failures and recommendations of the Commission. We find out in exact detail the timing, training and execution of the terrorists in accomplishing their terrorist acts. We look inside the four flights and simultaneously see what each one was doing all at the same time. Using the magic of graphics we follow all these flights at once. Jacobson and Colon tell of the attacks in graphic clarity. They also show the history as outlined in the 9/11 Report leading to the United States not organizing properly to avoid the greatest attack of the United States on 9/11/2001. This report goes into great detail of what mistakes our Security Agencies made. The lack of cooperation between Agencies led to petty complaints and jealousies. A lack of a unified Security Command led to this atrocity. In this report, we see the recommendations of the 9/11 Commission and also a report card given on 12/5/2005 in which the Commission was still giving low grades. Read it and be scared. We still have to get our act together. Great insight. I highly recommend this graphic report. 1 of 1 people found the following review helpful. Three Stars By Tiborious Maximus excellent overview of the tragic event in graphic novel form.

The 9/11 Report for Every American On December 5, 2005, the 9/11 Commission issued its final report card on the government's fulfillment of the recommendations issued in July 2004: one A, twelve Bs, nine Cs, twelve Ds, three Fs, and four incompletes. Here is stunning evidence that Sid Jacobson and Ernie Colon, with more than sixty years of experience in the comic-book industry between them, were right: far, far too few Americans have read, grasped, and demanded action on the Commission's investigation into the events of that tragic day and the lessons America must learn. Using every skill and storytelling method Jacobson and Colon have learned over the decades, they have produced the most accessible version of the 9/11 Report. Jacobson's text frequently follows word for word the original report, faithfully captures its investigative thoroughness, and covers its entire scope, even including the Commission's final report card. Colon's stunning artwork powerfully conveys the facts, insights, and urgency of the original. Published on the fifth anniversary of the terrorist attacks on the United States, an event that has left no aspect of American foreign or domestic policy untouched, The 9/11 Report puts at every American's fingertips the most defining event of the century.

Here is stunning evidence that Sid Jacobson and Ernie Colon, with more than sixty years of experience in the comic-book industry between them, were right: far, far too few Americans have read, grasped, and demanded action on the Commission's investigation into the events of that tragic day and the lessons America must learn. Using every skill and storytelling method Jacobson and Colon have learned over the decades, they have produced the most accessible version of the 9/11 Report. Jacobson's text frequently follows word for word the original report, faithfully captures its investigative thoroughness, and covers its entire scope, even including the Commission's final report card. Colon's stunning artwork powerfully conveys the facts, insights, and urgency of the original. Published on the fifth anniversary of the terrorist attacks on the United States, an event that has left no aspect of American foreign or domestic policy untouched, The 9/11 Report puts at every American's fingertips the most defining event of the century. "Never before have I seen a nonfiction book as beautifully and compellingly written and illustrated as The 9/11 Report: A Graphic Adaptation. I cannot recommend it too highly. It will surely set the standard for all future works of contemporary history, graphic or otherwise, and should be required reading in every home, school and library." --Stan Lee A Statement on The 9/11 Report: A Graphic Adaptation by Sid Jacobson and Ernie Colon The cave paintings in Altamira, Spain, tell stories. Mostly they tell tales of the hunt. Drawn during the Paleolithic Stone Age, they still amaze us with their lucidity and directness. As an artist, and as an editor and writer in the graphic medium, we each pay homage to those delineators and interpreters of experience. They offered accounts of what happened and provided a way of remembering, honoring, and learning. When retold by the fire's flickering light, these stories must have lent the drawings a compelling, virtual movement. There is something eerie, but deeply gratifying, in knowing that a direct line runs from our contemporary comic art to these earliest efforts to record and convey what happened. Storyteller, audience, drawings depicting continuity of event: it all sounds familiar. In a culture that has become the most visually oriented in the history of humankind, comics retain the original concept of storytelling and remain a potent force of information.
