**Rainy Hutchinson : The Acupuncture Points Functions Colouring Book** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Acupuncture Points Functions Colouring Book:

4 of 4 people found the following review helpful. Beyond the lectures!By Gregory M.Wow, just what I needed to move beyond the lectures and find some visual support!1 of 1 people found the following review helpful. Not what I expected... it really doesn't ...By E. MowinsNot what I expected... it really doesn't show the points on the body in a way to help me memorize the points... it does explain the function of the points, however.1 of 1 people found the following review helpful. Five StarsBy Cc LuxVery handy for my learning meridians.

This book presents a fun and practical way of learning the functions of acupuncture points on the twelve primary and eight extra channels.. Students are invited to colour and doodle their way through the sequence of images on each channel in turn embellishing anything they find difficult to remember or recall. Through the drawings the author offers her own imaginative visual representation of each point based on translations of the Chinese point names. The text page opposite each set of drawings provides a quick cross reference for the student, with a simple list of the point names and the main functions relating to each. The flexible style of this book accommodates the needs of students from a wide range of schools and traditions. This is an essential learning resource for students of acupuncture, acupressure, shiatsu and massage, and is ideal for revision and self or paired testing.

About the AuthorRainy Hutchinson is an acupuncturist, who runs her own clinic in Sheffield. She trained first in Fine Art Sculpture and worked for ten years as a teacher of Art Design before retraining as an acupuncturist. While studying, she used drawings to visually represent her notes, and she was soon approached by fellow students, and those from other colleges who wanted to use her drawings as a learning aid. She has since completed further training in paediatric acupuncture, and she now treats both adults and children in her clinic.
