Jonathan Mock : The Airfix Book of Scale Modelling before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Airfix Book of Scale Modelling:

6 of 6 people found the following review helpful. Glad to add this to my modeling libraryBy lone star shooterThis book is a great addition to any plastic modellers library.I think its an essential tool for those just beginning the hobby,or someone who has been away and getting back into it.I always come away with something I can improve on in the basics,alsoto try an new (to me) technique in future builds.....Thank You Airfix!!3 of 3 people found the following review helpful. John Bollig loves airfix kitsBy Kindle CustomerThis is really a labor of love and Mr. Mock loves airfix kits and I do too. This book is a masterpiece of modeling history and should be considered as the essential guide for any model builder. I have the softcover edition and it so important that t brought the ebook version.1 of 1 people found the following review helpful. This Airfix book does a fantastic job explaining a lot of the basics as well ...By KalidusJust recently got back into scale models after 38+ years! This Airfix book does a fantastic job explaining a lot of the basics as well as providing some great history of scale modeling as well. This is the first book I've added to my new Scale Model Library and proud to have it!

Airfix is an iconic brand, with a wide range of models that include aircraft, ships, cars, and historical dioramas. This manual, produced in full collaboration with Airfix and Humbrol, is the ultimate modeler's guide. It covers techniques for all aspects of model making, from basic construction to applying decals and custom paint to super-detailing and customizing standard kits. Readers learn creative fixes for common challenges, even as they celebrate one of the hobby's most popular names.

About the Author Jonathan Mock has been building plastic scale models for more than thirty years. After finishing art school in the 1980s, he worked in publishing as a graphic designer and contributed articles and artwork to modelling titles like *Scale Aircraft Modelling*, *Scale Models International* and *Plastic Kit Constructor*. Jonathan now works on a freelance basis, researching and designing decal artwork for Airfix along with producing work for other companies such as *The Aviation Workshop*, a job he describes as 'the perfect blend of my modelling, historical and artistic interests'.
