Henry Heydenryk Jr. : The Art History of Frames before purchasing it in order to gage whether or not it would be worth my time, and all praised The Art History of Frames:

2 of 3 people found the following review helpful. Informative.By TonyThis book is one of two by Henry Heydenryk Jr., on the subject of frames that I reccomend for anyone looking into the subject. Anytime we see a masterpiece on a museum wall, it's frame's in the viewing experience as well.The art of framing has evolved along with painting itself. An appreciation for the frame does make a museum visit, that much more. Check the book out for yourself.

The most concise and authoritative historical portrait available.
