Lawrence Porricelli : The Art of Arranging Artificial Flowers before purchasing it in order to gage whether or not it would be worth my time, and all praised The Art of Arranging Artificial Flowers:

0 of 0 people found the following review helpful. The only floral arrangement that I like was the one on the coverBy Joanne AveryThe only floral arrangement that I like was the one on the cover! I looked at each page with disappointment asthe arrangements seemed "old fashioned" and rather lacking creativity, so I closed the book and will give it away.What a disappointment!9 of 9 people found the following review helpful. a must have for floral designersBy A CustomerI have this book . it is a must have for a begining floral designer. it has lots of helpful hints on different types of designs and forms. it also has a list of flowers and theirpurpose in an arrangement. it even shows you what typeof arrangement goes in what size room. this book is very hard to find but you can buy it here on . if you reallywant a good floral design instruction book this is the one to buy.
