Excellent reading/lookingBy Audrey ParkinsonI had viewed the video of the team working on the exhibit for San Francisco de Young museum and wanted to see the show exhibit. The book photography and the write up by Burgard was excellent. Although stated the book would come UPS; it actually came US post and a day earlier than expected in a box. Dale Chihuly is the most famous and influential artist working in glass today. For more than four decades, he has been the leading figure in this unique art form, fusing traditional craft with fine art, fabrication with the natural environment. Now, in his first major San Francisco exhibition, Chihuly displays a vast array of artworks from many of his signature series (including the Baskets, Seaforms, Persians, Venetians, and more) at both the de Young and Legion of Honor museums. A career-spanning biographical essay by curator Timothy Anglin Burgard and stunning color photography of the works will captivate Chihuly's myriad fans both new and old.
